Md. Shamim Hossain

Frontend Developer (Next.js · TypeScript)

shamimthedev@gmail.com · linkedin.com/in/shamimthedev · github.com/shamimthedev · shamimthedev.vercel.app

SUMMARY

Frontend Developer specializing in Next.js and TypeScript, with hands-on experience building production-ready client websites and full-featured e-commerce platforms. Experienced in owning the complete frontend lifecycle—from UI/UX design and CMS integration to deployment and ongoing maintenance. Comfortable working remotely, collaborating with senior engineers, and delivering scalable, high-performance user interfaces.

EXPERIENCE

Founder & Frontend Developer

BebsharDost — Independent / Self-Employed
July 2025 – Present

- Designed and developed a production-ready client website using Next.js 15, TypeScript, Tailwind CSS, and Sanity CMS
- Owned the complete frontend lifecycle: UI/UX design, development, CMS integration, deployment, and maintenance
- Implemented a scalable CMS enabling non-technical content and product updates
- Deployed and currently maintain the live site, delivering ongoing updates, performance improvements, and bug fixes
- Collaborated directly with the business owner to translate business needs into a reliable frontend solution

Frontend Developer (Remote, Contract)

Private Client / Early-Stage Projects
May 2025 – Present

- Collaborated remotely with a senior software engineer on multiple frontend projects across e-commerce and service-based platforms
- Built complete page flows and reusable UI components using Next.js and TypeScript
- Translated requirements into responsive, accessible interfaces following modern frontend best practices
- Worked within a professional remote development workflow emphasizing clean code and component reusability

PROJECTS

amyra.com.bd — Live Client Project

Tech: Next.js 15, TypeScript, Tailwind CSS, Sanity CMS

amyra.com.bd

- Designed and developed a production-ready business website for a real client using Next.js and TypeScript
- Integrated Sanity CMS for dynamic content and product management
- Owned deployment and currently maintain the live site with ongoing improvements
- Ensured responsive design, accessibility, and cross-device compatibility

PlugNPlay — Premium Tech Gadget E-Commerce (Featured Project)

Tech: Next.js 15, TypeScript, Tailwind CSS, Zustand, Radix UI

plugnplay-lime.vercel.app

- Built a full-featured e-commerce platform with advanced filtering and cart management using Zustand with persistence
- Implemented a complete checkout flow with multiple payment methods (COD, bKash, Nagad, Card)
- Designed engaging shopping experience with hero carousel, flash sales, and curated product sections
- Focused on scalable architecture and smooth, responsive user experience

Kosi — Premium Furniture & Home Decor Store (Featured Project)

Tech: Next.js 15, TypeScript, Tailwind CSS, Zustand, Framer Motion

kosii.vercel.app

- Developed a premium storefront with dynamic filtering and dual shop view modes
- Designed polished user experience with animations and interactive product showcases
- Optimized performance using Next.js image optimization and route prefetching
- Emphasized clean UI, accessibility, and responsive design

SKILLS

Frontend

Next.js, React, TypeScript, JavaScript (ES6+), HTML5, CSS3

Styling & UI

Tailwind CSS, Radix UI, Framer Motion, Responsive & Accessible UI Design

State Management

Zustand

CMS & Content

Sanity CMS

Tools & Workflow

Git & GitHub, npm, Vercel, VS Code, Figma

EDUCATION

BSc in Soil, Water and Environment

University of Dhaka | 2015 – 2018

CERTIFICATION

Front-End Development with React

Creative IT Institute | 2024
